Additional statements provided on request	£15 each
---	----------

These are the fees charged by London & Colonial effective from 07 February 2014 and do not provide for any payments to your financial adviser. Our fees are subject to VAT.

Notes:

1. All charges may be altered (for new and/or existing business) subject to at least 1-month notice.
2. All fees will be linked approximately to the index for AWE or whatever index may supersede it.
3. We reserve the right to make additional charges for exceptionally complex investments.

Glossary of terms

Administration: The process of looking after the SIPP on an ongoing basis. This includes but is not limited to such things as providing a reconciled annual statement, setting up any initial regular contributions or savings and reclaiming tax where appropriate and making reports to HMRC and other statutory bodies.

Crystallisation: The act of starting to take benefits (tax free cash and / or income) from the SIPP. It may also be called 'vesting'.

Tax reclaim: In most cases pension contributions receive tax relief and we reclaim 25p from HMRC for each £1 you contribute to your pension. This is added to your fund upon receipt.

Lifetime annuity: A policy issued by an insurance company which provides an income for life in exchange for a lump sum (your accumulated SIPP fund).

OEIC: Open ended Investment Company, also known as a 'collective' investment.

Investment firm: A firm appointed by the plan holder to manage the investments within the SIPP on their behalf or act on an execution only basis (i.e. upon instruction from the plan holder).

In specie transfer: The transfer of an asset other than cash from another pension scheme to another.

Transfer in: Transferring the value of pension benefits from an existing pension scheme to your SIPP either in cash or in specie

Frequently asked questions about Fees

Please note: references below to "we", "us" and "our" are to the SIPP administrator.

Pension administration

1. What are the establishment fee and annual fee for?
The establishment fee covers the creation of the SIPP, and verification that our application form is fully completed and signed (including correct anti-money laundering identification) and processing any initial contributions / transfers including the reclaim of tax where appropriate.

The annual fee includes the preparation of the reconciled annual statement, regular reconciliations during the year and fulfilling all regulatory requirements including all general communications. No fees will be refunded in part or full when a transfer out is initiated. This includes but is not limited to establishment, annual and borrowing, property and income facility fees.

2. How do the fees for contributions work?
There are no fees for any cash contributions made at the point of the SIPP being established, whether they are single or establishing a regular contribution by standing order.

3. How do the fees for the transfer of in specie assets work?
We will process the transfer discharge forms together with the SIPP application at a charge of £75 per asset. If handling multiple schemes transfers at the same time, this fee will be capped at £300. N.B. A transfer of a property will follow the normal property purchase process and the property fees will apply.

4. How do you charge for the transfer in of partially crystallised funds?
Normal full establishment and annual administration fees will apply to the SIPP. Each transfer containing crystallised benefits will attract annual income fees if income taken.

Crystallisation and income withdrawal

5. What do your charges cover for going into Capped / Flexible Drawdown
The fee covers the work required to reconcile and revalue the SIPP in accordance with legislation and then pay benefits.

If you choose to take income, an annual income facility fee will then be charged for each transfer from which income is taken in any year. This covers the administration of PAYE payroll, deduction of tax if required and making the appropriate returns to HMRC. Also included is the facility to vary the level and frequency of income payments.

Investment related fees

6. Is a single authorised unit trust/OEIC or TIP application for two funds one or two transactions?
We apply a single transaction fee for each application form we receive. So in the instance above you would only incur one charge.

7. Why are fees charged to set up some investment manager accounts and not others?
If you ask us to open an account with an investment manager with whom we have already been able to agree a global investment agreement, the account opening process is streamlined and so we do not charge an account opening fee. For other organisations we may need to enter into a new investment agreement.

8. Do your fees include the stockbroker's fees?
No, our investment transaction fees relate to the recording and reconciling of investment transactions and do not include stockbroker, investment manager or nominee fees and charges.

Property fees

9. How do you calculate fees for dealing with a property purchase?

We have a standard fee that we apply to most transactions. This is based on the average amount of time and expertise that we need to apply during the purchase process. If there are exceptional circumstances we may need to increase this fee but if this is the case we will let you know before we commit to the transaction.

Our fee covers the following items. We will appoint, subject to appropriate due diligence, a surveyor and a solicitor, consider the matters disclosed in the surveyor's report and in the report on title from the solicitor and decide any further investigations or actions that may be required. We will also note any matters that may need to be monitored or addressed on an ongoing basis including compliance with regulatory requirements and reporting.

We will further consider and execute the contractual documents, agree suitable arrangements for completion, arrange for transmission of funds when required. We will similarly agree and execute the documentation of the lease as well as arranging suitable insurances, appointing the property manager and establishing proper records.

Please note that we will usually allow you the opportunity to nominate the surveyor and the solicitor that we appoint to act for us as and you may wish to negotiate rates with them. Their fees, together with all disbursements relating to the acquisition, sale or management of the property will be payable from your SIPP.

10. What does the property manager do for the management fee?

Your chosen property manager will deal with all general property management issues – these include invoicing the tenant for the rent due under the lease, chasing rent arrears, dealing with rent reviews, requests from the tenants to assign the lease or to sublet or to make alterations, to monitor compliance with the terms of the lease by the tenant and also to ensure observance of covenants relating to the property and compliance with fire, health and safety and all other regulations.

11. What do you do for your property holding fee?

We monitor periodic reports from the property manager and liaise on matters arising from those reports as well as agreeing any actions that may be necessary including the documentation of assignments and rent reviews. We also ensure that appropriate insurance cover is maintained, pay expenses falling due, credit rental income to your SIPP, reconcile all transactions and ensure continued compliance with regulatory requirements and reporting.

Borrowing

12. What are the fees if my SIPP borrows money?
If your SIPP borrows to purchase property, the initial costs of dealing with the mortgage will be £250. There is a fee for ongoing maintenance and monitoring of the loan of £100 per annum. Additional fees will be charged on a time-cost basis should the borrowing be varied, such as partly or fully repaid.

General

13. Do your fees increase?

We may increase fees annually by a percentage not materially exceeding the percentage increase in the monthly National Average Earnings index (the NAE) over the previous year. If the NAE ceases to be published or if the calculation of the NAE is altered we may substitute a comparable index.

We may at any time increase or amend all or any of our fees or charges payable from your SIPP in such a manner as we may determine. We will give you three months' notice where we amend or increase any fees by an amount materially exceeding the percentage increase in NAE.

14. Do you receive any other income in relation to my SIPP?

Yes. The rate of interest earned by any SIPP bank account will not be less than that normally credited by the bank on individual accounts. However, if the bank makes payments to the administrator that exceed the total of the normal interest credited to all individual accounts then we may retain the difference. We will also make arrangements for insuring, on our block policy, property held for your SIPP. If any income is earned by us in respect of such arrangements, we will retain it. We do not receive income from investment transactions.

15. Additional fees

We reserve the right to charge for additional services on a time-cost basis relevant to the expertise and seniority of our staff involved.

16. Is there anything else I should know?

All expenses, charges and outgoings whether in respect of the investments contained in your SIPP (including the costs of purchase, sale, management, maintenance and valuation of freehold and leasehold properties, if any, and other investments) or other expenses however incurred will be charged to your SIPP.

In the event of a levy being made on us under the Financial Services Compensation Scheme or any levy or taxation being imposed on us or your SIPP under any statutory provision affecting the business of SIPP providers, operators, administrators or insurance companies, we may recover from your SIPP an amount equal to the proportion of such levy or taxation that we may reasonably determine. This will be on a basis similar to how the levy, tax, liability, charge or other payment has been calculated.
